liabilities or a decrease in assets, and does not represent a contribution of fund capital in food service or pupil activity funds. Furthermore, the term ''revenue'' includes only revenue for current expenditures.

State aid means any contribution, no repayment for which is expected, made by a State to or on behalf of LEAs within the State for current expenditures for the provision of free public education.

Total local tax revenues means all ''local tax revenues'' as defined in paragraph (c) of this section, including tax revenues for education programs for children needing special services, vocational education, transportation, and the like during the period in question but excluding all revenues from State and Federal sources.

[60 FR 50778, Sept. 29, 1995, as amended at 62 FR 35419, July 1, 1997]

§ 222.162 What disparity standard must a State meet in order to be certified and how are disparities in current expenditures or revenues per pupil measured?

(a) *Percentage disparity limitation.* The Secretary considers that a State aid program equalizes expenditures if the disparity in the amount of current expenditures or revenues per pupil for free public education among LEAs in the State is no more than 25 percent. In determining the disparity percentage, the Secretary disregards LEAs with per pupil expenditures or revenues above the 95th or below the 5th percentile of those expenditures or revenues in the State. The method for calculating the percentage of disparity in a State is in the appendix to this subpart.

(b)(1) *Weighted average disparity for different grade level groups.* If a State requests it, the Secretary will make separate disparity computations for different groups of LEAs in the State that have similar grade levels of instruction.

(2) In those cases, the weighted average disparity for all groups, based on the proportionate number of pupils in each group, may not be more than the percentage provided in paragraph (a) of this section. The method for calculating the weighted average disparity percentage is set out in the appendix to this subpart.

(c) *Per pupil figure computations.* In calculating the current expenditures or revenue disparities under this section, computations of per pupil figures are made on one of the following bases:

(1) The per pupil amount of current expenditures or revenue for an LEA is computed on the basis of the total number of pupils receiving free public education in the schools of the agency. The total number of pupils is determined in accordance with whatever standard measurement of pupil count is used in the State.

(2) If a State aid program uses ''weighted pupil,'' ''classroom,'' ''instructional unit,'' or another designated measure of need in determining allocations of State aid to take account of special cost differentials, the computation of per pupil revenue or current expenditures may be made on those bases. The two allowable categories of special cost differentials are—

(i) Those associated with pupils having special educational needs, such as children with disabilities, economically disadvantaged children, non-English speaking children, and gifted and talented children; and

(ii) Those associated with particular types of LEAs such as those affected by geographical isolation, sparsity or density of population, high cost of living, or special socioeconomic characteristics within the area served by an LEA.

(d) *Revenues and current expenditures included in determinations.* All revenues or current expenditures must be included for each LEA in the State in determining the percentage of disparity under paragraph (a) of this section.

(Authority: 20 U.S.C. 7709)

[60 FR 50778, Sept. 29, 1995, as amended at 62 FR 35419, July 1, 1997]

§ 222.163 What proportion of Impact Aid funds may a State take into consideration upon certification?

(a) *Provision of law.* Section 8009(d)(1)(B) provides that, upon certification by the Secretary, in allocating State aid a State may consider as local resources funds received under sections

8002 and 8003(b) (including hold harmless payments calculated under section 8003(e)) and Pub. L. 81–874 only in proportion to the share that local tax revenues covered under a State equalization program are of total local tax revenues. Determinations of proportionality must be made on a case-by-case basis for each LEA affected and not on the basis of a general rule to be applied throughout a State.

(Authority: 20 U.S.C. 7709)

(b) *Computation of proportion.* (1) In computing the share that local tax revenues covered under a State equalization program are of total local tax revenues for an LEA with respect to a program qualifying under § 222.162, the proportion is obtained by dividing the amount of local tax revenues covered under the equalization program by the total local tax revenues attributable to current expenditures for free public education within that LEA.

(2) In cases where there are no local tax revenues for current expenditures and the State provides all of those revenues on behalf of the LEA, the State may consider up to 100 percent of the funds received under the Act by that LEA in allocating State aid.

(Authority: 20 U.S.C. 7709(d)(1)(B))

(c) *Application of proportion to Impact Aid payments.* Except as provided in § 222.161(a)(1)(ii) and (iii), the proportion established under this section (or a lesser proportion) for any LEA receiving payments under sections 8002 and 8003(b) (including hold harmless payments calculated under section 8003(e)) and Pub. L. 81–874 may be applied by a State to actual receipts of those payments or payments under Pub. L. 81–874.

(Authority: 20 U.S.C. 7709(d)(1)(B))

§ 222.164 What procedures does the Secretary follow in making a determination under section 8009?

(a) *Initiation.* (1) A proceeding under this subpart leading to a determination by the Secretary under section 8009 may be initiated—

(i) By the State educational agency (SEA) or other appropriate agency of the State;

(ii) By an LEA; or

(iii) By the Secretary, if the Secretary has reason to believe that the State's action is in violation of section 8009.

(2) Whenever a proceeding under this subpart is initiated, the party initiating the proceeding shall give adequate notice to the State and all LEAs in the State and provide them with a complete copy of the submission initiating the proceeding. In addition, the party initiating the proceeding shall notify the State and all LEAs in the State of their right to request from the Secretary, within 30 days of the initiation of a proceeding, the opportunity to present their views to the Secretary before the Secretary makes a determination.

(b) *Submission.* (1) A submission by a State or LEA under this section must be made in the manner requested by the Secretary and must contain the information and assurances as may be required by the Secretary in order to reach a determination under section 8009 and this subpart.

(2)(i) A State in a submission shall—

(A) Demonstrate how its State aid program comports with § 222.162; and

(B) Demonstrate for each LEA receiving funds under the Act that the proportion of those funds that will be taken into consideration comports with § 222.163.

(ii) The submission must be received by the Secretary no later than 120 calendar days before the beginning of the State's fiscal year for the year of the determination, and must include (except as provided in § 222.161(c)(2)) final second preceding fiscal year disparity data enabling the Secretary to determine whether the standard in § 222.162 has been met. The submission is considered timely if received by the Secretary on or before the filing deadline or if it bears a U.S. Postal Service postmark dated on or before the filing deadline.

(3) An LEA in a submission must demonstrate whether the State aid program comports with section 8009.

(4) Whenever a proceeding is initiated under this subpart, the Secretary may request from a State the data deemed necessary to make a determination. A failure on the part of a State to comply with that request within a reasonable
